Jurors Statement

Nikki Clark

Trumansburg, NY

...As a young girl I visited the Pennsylvania Academy of Arts and discovered Andrew Wyeth. It was then I knew art would be a major part of my life forever! Wyeth's palette and subject matter had a calming effect, while his technique made me curious. Today my palettes are subtle, muted, and may at times be considered limited. While I am creating, the experience can be found to be energetic, bursting with anger, or a flash of clarity. I am not conscious of thinking...I am doing. My art, and the art I enjoy is intensely personal, and solitary, which leads to experiencing a generous joyful, lively, bold and compassionate moment. I have enjoyed the work of your League and the love of the arts observed in this wonderful show!
