

- SIGHTS FROM AROUND THE WORLD -

Prospectus

“Sights from Around the World” is the theme for our 2024 May Contest. There are so many interesting and beautiful spots all around our wonderful world. Artists have helped share those special places since art began. Whether near or far, each location tells a story. Let’s broaden our cultural outlook! It could be a scene from travels, from an International Festival, a look at an object or fashion from afar, perhaps a visit to a Mexican, Italian, Chinese or other restaurant. Color, design, and inspiration are everywhere around us. What will inspire you?
