Roots & Wings

The theme for our 2026 May contest is "Roots & Wings." The theme is open to literal and interpretive approaches. Artists may interpret "roots" as heritage, home, landscape, tradition, stability, and "wings" as movement, transformation, imagination, or possibility. Literal interpretations, such as plants, trees, birds, insects or other natural forms are equally encouraged. Whether the members choose to go personal or purely visual, realistic or abstract, we hope "Roots & Wings" will offer a wide and welcoming framework for creativity. We are excited about this theme and look forward to a fun, inclusive member exhibition.
